

Vocab: Teenager - Find your Match

Your task is to find the person with the correct translation of your word (English/German pair) without speaking.

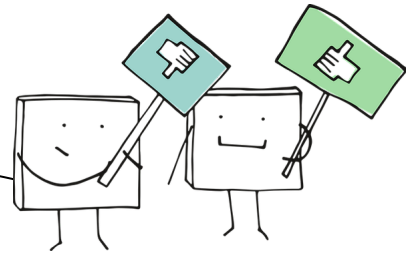

You can only look at the other person's card to see if it matches your translation.

Once you find your partner, work together to come up with a clear definition or explanation of your word in English.

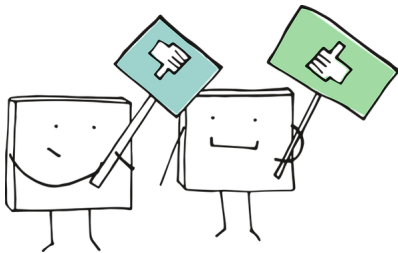

When everyone is finished, each pair will read out their definition, and the rest of the class will try to guess what the word is.

Good luck!
