|                                                                                                          | true                  | false                 |
|----------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| Black parents always told their kids that they would be safe from bad officers if they behaved properly. | <input type="radio"/> | <input type="radio"/> |
| Lynching of black men in public with the community being helpless humiliates and intimidates the police. | <input type="radio"/> | <input type="radio"/> |
| The message of lynching is: We can do whatever we want to you and you can't do anything about it.        | <input type="radio"/> | <input type="radio"/> |
| There will always be police brutality and racism.                                                        | <input type="radio"/> | <input type="radio"/> |
| A „third degree murder“ means that somebody said „oopsy“ when they committed the murder.                 | <input type="radio"/> | <input type="radio"/> |
| The pain must be accepted but it should not have the last word.                                          | <input type="radio"/> | <input type="radio"/> |
| African Americans don't want peaceful streets no more.                                                   | <input type="radio"/> | <input type="radio"/> |
