

Nursery safety is no accident

① 1. Complete the gaps with the correct word:

aware happening hazards safety

Around the nursery there are many possible . You must be a constantly of them to prevent them from . This is important for the of everybody. *hazard = danger*

2. Connect the correct pairs to form possible dangers at a nursery

- | | | | |
|------------|--------|-----------------------|-----------------|
| trapped | (1) | <input type="radio"/> | not raised |
| wet | (2) | <input type="radio"/> | pushed in |
| chair not | (3) | <input type="radio"/> | ignored |
| baby left | (4) | <input type="radio"/> | at child height |
| gate | (5) | <input type="radio"/> | left out |
| allergy | (6) | <input type="radio"/> | floor |
| dettox | (7) | <input type="radio"/> | unattended |
| cot side | (8) | <input type="radio"/> | left out |
| hot drinks | (9) | <input type="radio"/> | fingers |
| tools | (10) | <input type="radio"/> | not secured |
| children | (11) | <input type="radio"/> | left open |

3. Put the steps for dealing with unsafe acts into the correct order (1-4)

- Don't ignore an unsafe act!
- Make sure it gets sorted out!
- Report it!
- Stop it!

Ignorance is no defense

Even if you don't know something, this doesn't mean you won't be held responsible if something bad happens. Therefore, always ask if you don't know something.

Safe children are happy children
