

Organization:

Divide the players into two teams. Half of the players of one team **stand** at one goal, the other half at the diagonally opposite goal.

Assign a total of at least 8 field players (maximum 16 field players) always to two starting points. In addition, two goalkeepers are **placed**.

As material, 4 benches are placed at the center line in a V-shape for passing. Four starting cones are set up and two balls are placed at each starting point.

Procedure:

Players 1A of team blue and red **dribble** at the same time, **play** a double pass with the bench and then **pass** to the diagonally opposite partner, who dribbles past the opponent on the inside and finishes.

Both players 1A run to the opposite goal, play a fly ball to the partner, who **finishes** it again after **turning** in. Subsequently, the game is played two-on-two.

Coaching:

Pre-orientation, **take** eyes off the ball and target partner. Timing, processing and taking the inside shot. Likewise, one-on-one behavior is an important observation point.

Variation:

Partners start at the same goal distributed on both posts.

Player 1 passes to player 2 and **runs** behind him, while player 2 runs to the far post and counter-plays so that player 1 can pick up the ball and **shoot** at the far goal.
