$321 - 287 = 33$

A number line diagram illustrating the subtraction $321 - 287$. The number line has tick marks at 287, 290, 320, and 321. Above the line, there are three curved arrows representing jumps: a small jump from 287 to 290 labeled $+3$, a large jump from 290 to 320 labeled $+30$, and a small jump from 320 to 321 labeled $+7$.

$357 - 198 = 155$

The number line starts at 155 and ends at 357. There are tick marks at 155, 157, and 357. A curved arrow labeled '-2' points from 157 back to 155. Another curved arrow labeled '-200' points from 357 back to 157.
