

Task 1 - Reading: The Polar Bear

- ① **Read** the text and **fill out** the animal fact file with the information from the text.

Polar bears live in the ice and snow in the Arctic. Five countries have polar bears: Denmark, Norway, Russia, the US and Canada. Polar bears have white fur. They are very big animals. Male polar bears can be up to 3 m
5 long and weigh 680 kg. Female polar bears can be up to 2.5 m long and weigh 250 kg. They live outside, near the water. Polar bears eat other animals like seals, walruses and whales. They don't eat every day, but they eat a lot when they have lots of food. Polar bears have
10 to walk very slowly because they are very big! They can run, but not very far. They can swim very well. They live for about 25 years. Polar bears are in trouble. People sometimes kill polar bears for their fur. And the world is getting warmer and the ice in the Arctic is melting.
15 Polar bears can't hunt animals without ice, so lots of polar bears are hungry.
